

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LLOYD'S REGISTER
OF
BRITISH AND FOREIGN SHIPPING.

Notice.

From the number of alterations and additions constantly returned to this Office, it is necessary that the Register Books be posted every Week; it is therefore requested that Subscribers will be particular in sending their Books for that purpose.

The Committee in assigning to the existing Tonnage the number of Years for which Ships shall stand in the first description of the First Class, have been influenced in every instance by an anxious desire to do justice to the Ship-Owner; but should it appear on subsequent survey that any Vessel is entitled to a greater or less number of Years than has in the first instance been assigned to her, the Committee, in conformity with the Rules, reserve to themselves the power to make whatever alteration such future survey shall justify.

Parties discovering any errors, are requested to communicate the same to the Secretary, that they may be taken notice of accordingly.

It is particularly requested that Subscribers leaving town, will direct their Books to be sent to the Office, where they will be kept regularly posted.

By Order of the Committee,

NATH. W. SYMONDS,

Secretary.

LLOYD'S REGISTER

OF

BRITISH AND FOREIGN SHIPPING.

THE operations of the Societies of the two Register Books of Shipping, hitherto annually printed for the use of Merchants, Ship-owners, and Underwriters having ceased, it became an object most anxiously desired by the commercial community at large to establish a new Society for the purpose of obtaining a faithful and accurate classification of the Mercantile Marine of the United Kingdom and of the Foreign Vessels trading thereto. The following Gentlemen having been appointed a Provisional Committee—

DAVID CARRUTHERS, Esq. Chairman,
CRAWFORD D. KERR, Esq. Deputy Chairman,

GEORGE ALLFREY, Esq.	BRODIE A. M'GHIE, Esq.
THOMAS BENSON, Esq.	WILLIAM MARSHALL, Esq.
JOHN W. BUCKLE, Esq.	ALEXANDER MITCHELL, Esq.
THOMAS CHAPMAN, Esq.	HENRY NELSON, Esq.
HENRY CHEAPE, Esq.	JOHN REES, Esq.
TIMOTHY A. CURTIS, Esq.	JOHN ROBINSON, Esq.
NATHANIEL DOMETT, Esq.	ROBERT H. SHEPARD, Esq.
RICHARD DREW, Esq.	JOSEPH SOMES, Esq.
THOMSON HANKEY, JUN. Esq.	THOMAS WARD, Esq.
GEORGE HANSON, Esq.	ARTHUR WILLIS, Esq.
GEORGE LYALL, Esq.	LESTOCK P. WILSON, Esq.

adopted the following Resolutions :

That a Society be established for obtaining an accurate classification of the Mercantile Marine of the United Kingdom, and of the Foreign Vessels trading thereto, and that a book containing a Register of such classification be annually printed, to be called "*Lloyd's Register of British and Foreign Shipping.*"

That all persons subscribing the sum of Three Guineas annually, be Members of the Society, and entitled (*for their own use*) to a copy of the Register Book.

That the price at which the Register Book be issued to Public Establishments, not being Marine Insurance Companies, be Ten Guineas.

That the Register Books shall be periodically posted throughout the year.

That for the convenience of Members not resident in London, a monthly Supplement, containing the Reports of Surveys upon newly-built Vessels, Repairs, &c. be printed in such convenient form, as will admit of its transmission by Post, that those parties may be furnished with the latest and most correct information, to defray the expence of which, an additional charge of One Guinea per annum will be made.

SUPERINTENDENCE OF THE SOCIETY.

The future superintendence of the affairs of this Society to be entrusted to a Committee in London, composed of twenty-four Members, consisting of an equal proportion of Merchants, Ship-owners, and Underwriters, and that in addition, the Chairman of Lloyd's and the Chairman of the General Ship-owners' Society for the time being, shall, *ex officio*, be Members of the Committee.

The Provisional Committee, on their having completed the arrangements for establishing the Society, in the first instance, to appoint the eight Members constituting the Mercantile portion of the Permanent Committee.

The Committee of the General Ship-owners' Society to elect the eight Members constituting the portion of Ship-owners.

The Committee of Lloyd's to elect the eight Members constituting the portion of Underwriters.

Six of the Members, namely, Two of each of the constituent parts of the Committee, shall go out annually by rotation, but be eligible to be re-elected.

The vacancies so arising, shall be filled up on all future occasions by the election of two Ship-owners and one Merchant, to be made by the Committee of the General Ship-owners' Society; and two Underwriters and one Merchant shall be elected by the Committee of Lloyd's.

The Committee shall appoint from their own body, annually, a Chairman and Deputy Chairman.

The appointment of Secretary, Surveyors, and all other Officers of the Society shall be made by the Committee, whenever vacancies arise.

Five Members of the Committee shall be a quorum. The Committee shall have full power to make such By-Laws for their own government and proceedings, as they may deem requisite, not being inconsistent with the original Rules and Regulations under which the Society is established.

All Elections and appointments whatever shall be made by ballot.

SURVEYORS.

The utmost care and discrimination have been exercised by the Committee in the selection of men of talent, integrity, and firmness as Surveyors, on whom the practical efficacy of the system and the contemplated advantages must so materially depend; the Committee have in their judgment appointed those persons only, who, from the testimonials they produced, appeared to them to be most competent to discharge the important duties of their situations with fidelity and ability, and to ensure strict and impartial justice to all parties whose property shall come under their supervision.

No Surveyor will be permitted to receive any fee, gratuity, or reward whatsoever to his own use and benefit, for any service performed by him in his capacity of Surveyor to this Society, on pain of immediate dismission.

The Surveyors to the Society will be directed to attend on special surveys of ships under damage, the charge for which will be regulated according to the nature of the service performed.

FUNDS.

The Funds will be under the authority and control of the Committee, who will publish annually a statement of their receipts and expenditure.

The following fees will be charged to the owners of ships surveyed and classed.

RULES FOR CLASSIFICATION.

The Provisional Committee, assisted by the valuable information and practical knowledge of the Committee of the General Ship-owners' Society, have, after much labour and mature consideration, adopted the following RULES and REGULATIONS for the future Classification of Ships, and they trust, that when these Rules have been applied, the result will be, that instead of the uncertain standard of the Port of Building and the uncontrolled decision of Surveyors, which hitherto have determined the quality and character of ships, a book of reference will be compiled which may be referred to with confidence, as not only containing the report of qualified Surveyors, but exhibiting that report corrected or substantiated by the Committee of this Society.

FIRST CLASS SHIPS.

It is proposed that ships in this class shall be divided into two denominations, to be distinguished as "First Description of the First Class," and "Second Description of the First Class."

First Description of the First Class,

Will comprise all ships which have not passed a prescribed age, and which are kept in the highest state of repair and efficiency; these will be designated by the letter A.

Second Description of the First Class,

Will comprise all ships, which having passed the prescribed age (but not having undergone the repairs that would entitle them to be continued in or restored to the First Description), or which shall have been restored and the period assigned for such restoration having expired, are still in a condition for the safe conveyance of dry and perishable cargoes; these will be designated by the diphthong Æ.

REMARKS.

The period for the continuance of ships on the First Class is limited. The extent of that period will be determined by reference to the original construction and quality of the vessel, the materials employed, and the mode of building.

It is desirable, on grounds of national policy and of individual justice, that after the expiration of the prescribed period, ships shall be permitted to remain in the First Description of the First Class, or to be restored thereto, for a further limited period, under certain defined regulations hereafter set forth.

SECOND CLASS SHIPS.

This class will comprise all ships which shall be found, on survey, unfit for carrying dry cargoes, but which may be reported by the Surveyors to this Society to be perfectly safe for the conveyance of cargoes not in their nature liable to sea damage to all parts of the world; these will be designated by the letter E.

THIRD CLASS SHIPS,

Will comprise such ships as are good in constitution, and reported by the Surveyors to this Society to be fit for the conveyance, *on short voyages* (not out of Europe), of cargoes in their nature not liable to sea damage; these will be designated by the letter I.

SHIPS' ANCHORS, CABLES, AND STORES.

The state and condition of Ships' "Anchors, Cables, and Stores" will continue to be designated by the figures 1 and 2.

GENERAL REMARKS.

A report of the survey of every vessel shall be made in writing by the Surveyors to this Society, and submitted to the consideration of the Committee, by whom alone the classification and character of all vessels shall be assigned; and not less than three members must be present at every meeting for that purpose.

That in assigning character to the existing tonnage, and especially in restoration to the First Description of the First Class of ships that have been built without a view to such a privilege, the greatest caution will be exercised, but with a rigid attention to render ample justice to the Ship-owner.

No member of the Committee will be permitted to vote in the decision of the classification of any ship of which he is an owner, or directly or indirectly interested.

The reports of Surveyors, and all documents and proceedings relating to the classification of ships, will be carefully preserved, and those parties proving themselves to be interested therein will have access thereto under certain regulations.

In all cases wherein ships are proposed in the report of the Surveyors to this Society to be removed from one class to an inferior class, notice is to be previously given, in writing, by the Surveyors to the Owner, Master, or Agent, with an intimation, that if the alteration be objected to, the Committee are ready to direct a special survey, to ascertain the state of the ship, on the Owner, Master, or Agent, agreeing to pay the expences attending the same, provided it shall upon the survey appear that there has been sufficient ground for such removal.

FIRST CLASS SHIPS.

First Description of the First Class Ships.

New ships coming within this denomination, must have been surveyed while building, by the Surveyors to this Society, in the following three stages of their progress.

First.—When the frame be completed.

Second.—When the beams are in, but before the decks are laid, and with at least two strakes of the plank of the ceiling between the lower deck and the bilge, unwrought, to admit of an examination of the inner surface of the plank of the bottom.

Third.—When completed, and if possible, before the plank be painted or payed.

A full statement, agreeably to a schedule prepared for that purpose, of the dimensions, scantlings, &c. of all New Ships, verified by the builder, shall be transmitted by the Surveyor, and will be kept as a record in the Office of the Society.

In building New Ships, to entitle them to be ranked in this Class, the following Rules are to be observed:—

Timbering.

The whole of the timbering to be of English, African, or Live Oak, or Teak, of good quality; the stem, stern-post, beams, transoms, aprons, knightheads, and hawse timbers, to be entirely free from all defects; the frame to be well squared from first foothook heads upwards, and free from sap, and also below, unless the timber is proportionably larger than the scantling hereafter described; every alternate set of timbers to be framed and bolted together. The butts of the timbers to be close, and not to be less in thickness than one-third of the entire moulding at that place, and to be well chocked, with a butt at each end of the chock.

The Scantlings to be as follows :

Third.—The clamps, spirkettings, shelf-pieces, and ceiling, to be English or African Oak, or Teak.

The outside plank to be clear of all defects, the inside to be free of all foxy, druxy, or decayed planks, and the whole to be properly shifted and fastened. No butts to be nearer than five feet to each other, unless there be a strake wrought between them, and then a distance of four feet may be allowed; and no butt to be on the same timber, unless there be three strakes between.

GENERAL REMARKS.

The scantlings and dimensions of all intermediate sized vessels to be proportionately regulated, agreeably to a scale adopted by the Society, a copy of which is in the hands of each of the Surveyors; and it is to be clearly understood, that smaller dimensions will not entitle the ship to be placed in this class.

First.—All ships so constructed, and having the whole of the workmanship generally performed in the best manner, will be marked in the Book thus, "12 A"; thereby denoting that they are ships of the first quality, and will remain in the First Description of the First Class *Twelve Years*, provided they be kept in a state of efficient repair. For Additional Rule, see p. 22.

Secondly.—Ships surveyed while building, as before mentioned, the scantling of timber, thickness of plank, and size of fastenings of which shall be in no respects less than those in the foregoing specifications, but which may not be framed, nor chocked, nor the timbers so well squared, as in the manner before described, or in which Live Oak and Red Cedar alternately may have been used in the framing, or in which good Foreign White Oak may have been used for ceiling, shelf-pieces, and clamps, will be marked in the Book thus, "10 A"; denoting that they are to remain in the First Description of the First Class *Ten Years*, provided they be kept in a state of efficient repair.

Thirdly.—Ships surveyed while building as before mentioned, but in the frame of which Foreign Oak timber shall be used for floors and first foothooks only, or in which good White Dantzic Oak plank shall be used below the wales outside, whilst in other respects they are constructed in the manner set forth in the preceding descriptions, will be marked in the Book thus, "9 A"; denoting that they are to remain in the First Description of the First Class *Nine Years*, provided they be kept in a state of efficient repair.

Fourthly.—Ships surveyed while building, as before mentioned, and framed and fastened according to the preceding descriptions, but in the planking of which good Foreign White Oak shall be employed in other parts than the bottom, will be marked in the Book thus, "8 A"; denoting that they are to remain in the First Description of the First Class *Eight Years*, provided they be kept in a state of efficient repair.

Fifthly.—Ships surveyed while building as before mentioned, and framed and fastened agreeably to the preceding descriptions, but in which good Foreign White Oak shall be used in the frames above the first foothook-heads, or in the planking of which (except the strakes through which the beam fastenings pass) good Dantzic Fir shall be used, will be marked in the Book thus, "7 A"; denoting that they are to remain in the First Description of the First Class *Seven Years*, provided they be kept in a state of efficient repair.

Sixthly.—Ships surveyed while building as before mentioned, in the frames of which, above the first foothook-heads, sound old English or African Oak

or Teak timbers shall be used, but planked agreeably to any of the preceding descriptions, or with American Red Pine or Yellow Baltic Pine, will be marked in the Book thus, "6 A"; denoting that they are to remain in the First Description of the First Class *Six Years*, provided they be kept in a state of efficient repair.

Seventhly.—Ships surveyed while building as before mentioned, in the frames of which, above the first foothook-heads, Red Pine timber, either American or Baltic, or Hackmatack, and in the bottoms of which, below that mark, the same materials are used, or Black Birch, Elm, Ash, or hard wood of like quality, and in the planking of which good Yellow Pine shall be used, will be marked in the Book thus, "5 A"; denoting that they are to remain in the First Description of the First Class *Five Years*, provided they be kept in a state of efficient repair.

Eighthly.—Ships surveyed while building as before mentioned, the frames of which above the first foothook-heads are composed of Yellow Pine, Elm, Ash, Birch, Spruce, or other similar woods, will be marked in the Book thus, "4 A"; denoting that they are to remain in the First Description of the First Class *Four Years*, provided they be kept in a state of efficient repair.

Ships built in the United Kingdom under a roof, and which shall have occupied a period of not less than Twelve Months in their construction, will have One Year added to the period prescribed for their continuing in the First Class.

Ships to be hereafter built, and not surveyed while building by the Surveyors to this Society, will be subjected to a special examination previously to assigning the class in which they are to be placed, according to the preceding regulations; but in all such cases One Year will be deducted from the period allowed to that class, in consideration of not having been submitted to such survey during the construction.

Special Exceptions.

The prohibition in all cases of the use of *Fir* will not apply to ships the topside planking of which, between the lower paint or shear strake and the upper black strake only, shall be composed of Pitch Pine or Dantzic or Riga *Fir* of the best quality.

Iron-Fastened Ships.

Ships under 150 tons, although *Iron-fastened*, will be admissible to any of the preceding classes except the first, and those above 150 tons to any except the first, second, or third, provided that in other respects they be constructed in accordance with the preceding rules, and that their bottoms be not copper sheathed.

At the expiration of the above periods, all ships will be reduced to the Second Description of the First Class, designated by the diphthong *Æ*; but if not surveyed within Twelve Months after entering this description, such ship having been during that time in some Port of the United Kingdom, the character will be omitted until such survey be held, or, if required by the owner, will be allowed to pass into the letter *E*.

SECOND DESCRIPTION OF FIRST CLASS SHIPS.

This Class comprises Ships, which having passed the prescribed age, and not having undergone the repairs that would entitle them to be continued in or restored to the First Description, or which shall have been restored, and the period assigned for such restoration having expired, are still in a condition for the safe conveyance of dry and perishable cargoes; these will be designated by the diphthong *Æ*.

GENERAL REMARKS.

For the purpose of ascertaining the competencies of ships for this description, a careful survey will be required to be made annually, or on the return from every foreign voyage, by the Surveyors to this Society.

The bottom of every ship of this description will be required to be caulked at least once in every Five Years; or if wood sheathed and felted, once in every Seven Years; but if any ship be stripped within those periods, the bottom to be caulked if necessary.

The Surveyors in their Reports to the Committee, on which the continuance of ships on this letter is to be founded, are required to state distinctly and separately the actual condition of the decks, beams, and topsides, particularly in the way of the deck fastenings, water-ways, hatchway comings, beams, breasthooks, upper and lower deck fastenings, timber, plank, and treenails.

Where the Surveyors to this Society consider repairs to be requisite, they are respectfully to intimate the same, in writing, to the owner, agent, or master, and if such repairs be not entered upon within a reasonable time, a corresponding report will be made to the Committee.

Parties considering the requisitions of the Surveyors to this Society to be unnecessary or unreasonable, may refer to the Committee, who will direct a special survey and report for their guidance, the expence of such survey being paid by the party appealing, should the requisition of the Surveyors be confirmed by the Committee.

In cases where it shall satisfactorily appear to the Surveyors to this Society that *Doubling*, of sufficient thickness and properly wrought and fastened, may be allowed as a substitute for the shifting of plank, either in the wales or bottom, the Surveyor is to make a special report thereof, together with his reasons, to the Committee, who will determine thereon.

SECOND CLASS SHIPS

Will comprise all ships which shall be found on survey unfit for carrying *dry cargoes*, but which shall be reported by the Surveyors to this Society to be perfectly safe and fit for the conveyance, *to all parts of the world*, of cargoes not in their nature subject to sea damage, and they will be designated by the letter E.

Subject to occasional inspection, ships will continue in this class so long as their condition shall, in the opinion of the Committee, entitle them thereto.

THIRD CLASS SHIPS

Will comprise ships that are good in constitution, and which shall be found on survey fit for the conveyance, on *short voyages* (not out of Europe), of cargoes in their nature not subject to sea damage, and they will be designated by the letter I.

ADDITIONAL RULE FOR SHIPS OF THE FIRST DESCRIPTION OF THE FIRST CLASS.

Committee Minute, 16th Dec. 1834.

RESOLVED,

That an intermediate class be constituted, comprising Ships in which *all* the requisites for the *Ten Years Ships* have been complied with, although *some* of those required for the *Twelve Years Ships* may have been omitted, and that such Ships are to remain in the first description of the first class *Eleven Years*, provided they be kept in a state of efficient repair, and that they be marked in the Book thus, "11 A."

Committee Minute, 19th Dec. 1834.

ORDERED,

That the Rule requiring "that in all cases where the Butt Bolts are not through and clenched, one year will be deducted from the period assigned in the classification of the Vessel." shall *not* be applied to Ships built previously to the promulgation of the Regulations of this Society; but that in *the case* of all Vessels built since that period, the Rule will be rigidly *enforced*.

RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF THE FIRST CLASS.

If at any time, before the expiration of one-half of the number of years beyond the period for which ships are to remain in the First Description of the First Class, an owner be desirous to have his ship continued in or restored to that description, such restoration shall be acceded to (on his consenting to the special survey hereafter described, and performing the repairs found requisite) for a further period, but which shall not exceed two-thirds of the time originally assigned for her remaining in the First Description of the First Class, the same to be calculated from the year of such restoration.

Requisites for Restoration.

All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck water-ways, and plank shears and spirketting, and the strake next the water-ways on the lower deck in the midships, to be also taken out; the sheathing to be entirely stripped off the bottom; a strake in the upper course of the bottom between the wales and the light-water mark fore and aft, and a plank in the ceiling at the floor-heads, to be taken out, the limbers to be clear, and the hooks forward to be exposed; and in that state the ship to be submitted to a special Survey and examination, at which the attention of the Surveyors to this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knight-heads, kelson, floors, foothooks, ceiling, and breast-hooks, the rudder in all its parts and hangings; and if, after such examination, the owner should consent to take out all planks, timbers, beams, knees, water-ways, fastenings, and other parts that may be found defective, and objected to, and replace them with materials of the same species, or of equal quality, as those of which the ship was originally constructed, such ships to be entitled to restoration to the First Description of the First Class for a further period proportionate to their real condition and the extent of the repairs performed, and provided that they be at all times thereafter kept in a state of efficient repair.

Additional Rule.

But if, at any age, the whole of the outside plank of a vessel should be taken off as low as the second foothook-heads, and the remainder of the planking, either outside or inside, together with all the decks, be removed, so as to expose the Timbers of the Frame entirely to view, and in that state the ship be submitted to a special survey and examination by the Surveyors to this Society, and if, after such examination, all Timbers, Beams, Knees, Kelsons, Transoms, Breasthooks, remaining Plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the ship was originally constructed, and all the Treenails driven out and renewed; such ships may be restored to the first description of the First Class, for so long a period as may be deemed expedient by the Committee, not exceeding in any case the term of six years, as provided by the Sixth general Rule for ships, in the construction of which old Timber has been used.

FOR SHIPS WHICH COMPRISE THE EXISTING TONNAGE.

All ships comprising the existing tonnage, are to undergo a very careful survey by the Surveyors to this Society, PRIOR TO REGISTRATION, and will be classed in the New Register agreeably to the descriptions herein-before laid down for the building of new ships, unless on such survey there be found sufficient cause to assign them a less period.

On the proposed survey, especial attention is required to the following points, namely, to an examination of the state of the upper-deck fastenings, water-ways, spirketting, plank shears, topsides, and upper deck, with its appendages; also the lower-deck fastenings, wales, and counter, and the plank and treenails outside to the water's edge; the state of the rudder, windlass, and capstan (if the latter be used for purchasing the anchors).

And if on the examination, any ship shall be found to be so defective as to render her unfit to continue on the First Description of the First Class for the remainder of such term of years, as *she would be entitled to under these Rules and Regulations*, a notice of the intention to make such a reduction at the expiration of thirty days, shall be given in writing by the Surveyors to this Society, to the Master, Owner, or Agent, with an intimation that if any of them object to the alteration, the Committee will direct a special survey, to ascertain the state of the ship, on the said Master, Owner, or Agent agreeing to pay the expences attending the same, *should it be found that the proposed reduction was justifiable.*

SHIPS' ANCHORS, CABLES, AND STORES.

All vessels are required to have their masts, spars, and standing rigging in good order, and the principal sails in sufficient number and good condition, and every ship is to be supplied with a good hempen stream cable or lawser of sufficient size and length, and with at least one good warp; and all vessels are required to be provided with anchors of proper weight, and cables of approved quality, in number and length according to the undermentioned scale:—

Anchors.

All vessels under 200 tons to have at least two bower anchors, and all vessels above that tonnage to be provided with at least three bower anchors.

Cables.

		Tons.	Fathoms.
All vessels under	100	to have at least 150 if chain.
—	100 to	150 160 do.
—	150 to	200 170 do.
—	200 to	300 180 do.
—	300 to	400 200 do.
—	400 to	620 220 do.

But in all cases where hempen cables are used, then one-sixth more in length will be required.

Boats.

All vessels under 150 tons to be provided with one good boat; and every vessel above that tonnage to be provided with at least two good boats.

FOR SHIPS NAVIGATED BY STEAM.

All sea-going Vessels navigated by *Steam* shall be required to be surveyed *twice in each Year*, when a character shall be assigned to them according to the report of survey as regards the classification of the hull and materials of the vessel.

That with respect to the boilers and machinery, the Owners are required to produce to the Surveyors to this Society at the above-directed surveys a certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed; to be appended to the report of survey and delivered to the Committee, who will thereupon insert in the Register Book the letters M.C. denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned.

The Surveyors to this Society are directed to observe the following Rules with regard to vessels navigated by Steam.

Hull:—To examine and report the scantling of Timbers, Plank, and Fastenings, where built, and by whom, in the same manner as directed for sailing vessels.

Scantlings:—The scantlings are to be deemed sufficient for a steam vessel under 300 Tons Register, if equal to those required by the Scale, prescribed in the Rules of this Society, for a sailing vessel of Two-thirds of the *Registered Tonnage* of such steam vessel.

But for a steam vessel *above* 300 Tons Register, then the scantlings are to be equal to those required by the Scale, for a sailing vessel of *Three-fourths* of the *Registered Tonnage* of such steam vessel.

Floors:—Where the Vessel is not filled in solid to the Floor-heads in the Engine Room, an exception will be specially made against any reduction of the scantling of the Floors, which in such cases will not be permitted to be upon the reduced scale of two-thirds or three-fourths of the dimensions for the scantlings of sailing vessels as before stated; but the Floors will then be required to be equal to the dimensions set forth in the Rules for ships of the actual Registered Tonnage of the steam vessel.

The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the Engine and Boiler Sleepers, and the description of Timber of which they are composed, and whether diagonally trussed with Wood or Iron, and to what extent; the length, size, and fastenings of Shelf Pieces and Paddle Beams; and whether the Vessel be constructed with Spongings and how they are formed; and to give the general length and shifting of the Plank outside and inside.

Materials and Stores:—The Surveyors are to examine and report the number and description of the Masts, Sails, Anchors, Cables, Hawasers, Warps, and Boats, as directed to be done for sailing vessels; but the Anchors and Cables will not be required to exceed in number, weight, and length, those of a sailing vessel of Two-thirds of the *Registered Tonnage* of the steam vessel.

The Surveyors are to be particular in examining the Boats of all vessels employed in carrying Passengers.

Master Engineer.

The Rules herein set forth may at all times be altered by the presiding Committee, and especially to meet any acknowledged improvements which may be made in naval architecture, or in the materials used in ship-building.

The Provisional Committee cannot conclude this Statement without advertising to the encouragement they have received by the grant of £1,000 from the funds of Lloyd's, and to the general support that has been given by Insurance and Mercantile Companies, Merchants, Ship-owners, and Underwriters, whose liberal donations, in addition to their Subscriptions to the Book as Annual Members, have tended to establish the Society and ensure its permanency on a firm basis.

It is the earnest desire of the Committee to cultivate and maintain the most perfect good understanding with the Merchants, Ship-owners, and Underwriters of the different out-ports of the United Kingdom, on whose support they rely for the promotion of the objects of the Institution within their respective districts.

The Register which is now presented to the Mercantile Community, contains an authentic *List of all Ships registered in the United Kingdom of 50 tons measurement and upwards, as furnished to the Provisional Committee, under the permission and direction of the Lords of His Majesty's Treasury, by the Honourable the Commissioners of Customs*, but is not yet in that perfect state of completion the Provisional Committee could desire, for in accordance with the Rules for Classification relating to the existing tonnage, *every ship is required to undergo a Survey by the Surveyors to this Society, prior to Registration*; the Provisional Committee, however, trust, that ere many months elapse, their Surveyors will have accomplished the surveys of most of the shipping, and that the work will then be found worthy of that extensive patronage and support which they have received, and have now the gratification to acknowledge — the best approval of the performance of their unavoidably protracted, arduous, and anxious duties.

By Order of the Provisional Committee,

NATH^L. W. SYMONDS,

No. 2, White Lion Court, Cornhill,
